

Pinnacle Series

Vented Gas Logs

Pinnacle Series log sets incorporate a unique two-level burner system with two vertical log stack options. The Everest is a taller log stack that is designed to accommodate the fireplace opening height that is typical with Rumford style fireplaces. The Sierra is a shorter stack that can go in standard sized fireplaces.

- Tallest Peak (Olympia: 30" stack height) Tall Peak (Everest: 24" stack height) Short Peak (Sierra: 14" stack height) log options
- Two-level, sandless burner system
- Can be installed in shallow fireplaces with 11" depth

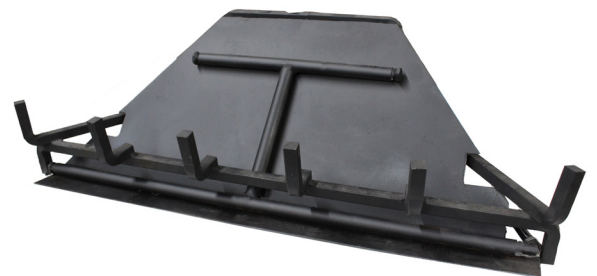

Sierra Stack 24" Set

Everest Stack 24" Set

Olympia Stack 24" Set

Pinnacle Series log sets are available in 18", 24", 30" and 36" sizes for Natural Gas or Liquid Propane and can be upgraded to on/off or variable flame remote control.
